

CORE BITS TILING - CERAMICS - MARBLE RANGE

SX | «Vacuum brazed» technology

SX006N hexagonal coupling SX006N M14 coupling

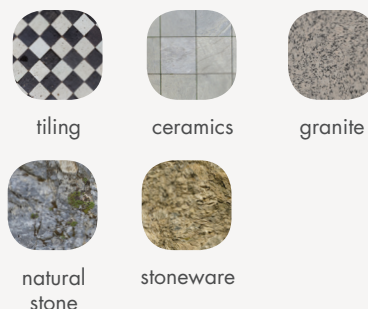

Segment «vacuum brazed» technology

BENEFITS

- Useful length of pipe:
 - 30 mm for Ø 6
 - 40 mm up to Ø 18 mm
 - 50 mm onwards
- «Vacuum brazed» segments = even more resistance
- Specially developed for angle grinders and drills

MATERIALS

REFERENCE	Ø	COU-PLING	SEGMENT	MACHINE	TYPE OF DRILLING
SX06N	6	hexagonal or M14	/	and	
SX08N	8				
SX10N	10				
SX12N	12				
SX14N	14

SX55N	55				
SX60N	60				
SX68N	68				
SX75N	75				
SX82N	82				
		M14			

THE EXPERT'S TIP

On the 6 to 14 mm diameters: select the coupling according to your machine (M14 or hexagonal). For perfect drilling, use our couplings with centring bits. (ref. R04 and R05).

REF.	DESIGNATION
R04	Couplings with centring bit M14 - SDS
R05	Couplings with centring bit M14 - hexagonal
